

PAINTING & SPECIALIST COATINGS

SWAN HUNTER – TYNESIDE

Barrier prepared and painted approximately 3,500 tonnes of steel and 1,000 tonnes of pipe spools prior to installation. The work was undertaken over a 20 month period, with Barrier personnel working 24 hours a day.

THE SOLITAIRE LEAVING THE RIVER TYNE IN FEBRUARY 1998

SOLITAIRE UNDER CONVERSION

The Allseas owned bulk carrier was converted to an advanced pipe-laying vessel at Swan Hunter's Wallsend yard. The 125,000 tonne vessel is capable of laying 6 km of large diameter pipeline in a day and is designed to work in deep water and adverse weather conditions, and is the largest vessel of her kind.
